Los Angeles, California.

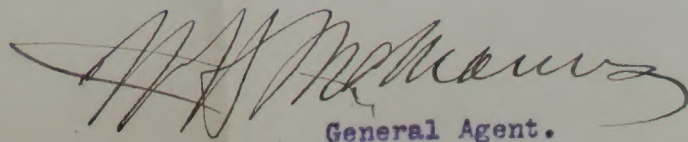

Dear Miss Hartzell:

Your esteemed favor of May 9th received stating you wish to take a five year paid-up policy. I guess you mean three years, as you have paid three year's full premiums, making your paid up policy \$225; but you can get a loan on this policy of \$64.00, which would carry your premium for another year and the balance paid to you. However, if you are sure you cannot keep up the policy it would be better to take the paid up policy, and if you send you policy in I will have the change made for you. I prefer to do this for you rather than have you see the people in your city.

Of course your policy will be in force thirty days from the date the premium falls due, June 4th, which will carry it until July 4th, but you had better send your policy in so we can get it through in time unless you decide to take a loan; but in any event you would have to send your policy in.

Awaiting your reply, I remain,

Yours very respectfully,

General Agent.
